The chopped challenge will be virtual again this year for all participants. There will be personal teams that will be given the mystery ingredient and a scheduled time to meet with the judge a week in advance of the Chopped Zoom session. This will give competitors time to purchase the ingredient and reduce the wait time during the judging process.

The entire cooking portion of the competition will be completed outside of the Zoom session with the judge. Competitors need to have their dish ready by their designated time on June 30.

Dishes will still be judged on: creativity, presentation, knowledge of food groups in the dish, food safety and preparation, and effective public speaking skills.

Prizes will be given to winners!
