

Linn County Kansas Barn Quilt Block Application

Hand-sewn quilts are often passed between generations as a part of the family's legacy. That sense of pride has created a new national trend of barn quilt blocks that are made for display in typically rural areas.

We are wanting to locate and promote these pieces of public art that are available for viewing throughout the county at any time. To be included in the listing of barn quilt blocks, **please complete the attached application**. Please provide as much detail as possible. For instance, you may not know the formal name of the quilt block or the artist. Please simply provide the details you can confirm. Only a few of the questions are mandatory.

A committee will review applications periodically and you will be notified if further information is needed to place your barn quilt on the county trail. Our goal is to get a map printed including information and a picture of the barn quilts that have been hung and submitted to be a part of the trail.

These two barn quilts were painted at a workshop sponsored by K-State Research and Extension June 3rd in Mound City. 16 Barn Quilts were completed and the picture at the bottom shows one of the barn quilts on the Linville School.
